Reasons for allowance

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach the combination of limitations in the independent claims 1, 14-15, 28-29, and 42, especially, "selecting a third set ofbeing displayed to the user" of claims 1, 15, 29 and "identifying a plurality of selection techniques for determining the degree of relevancy information for the first set of CPIOs...being displayed to the user" of claims 14 and 28.

Ferguson et al. (US 6820094) teach managing documents in a computer-based system, particularly, the way in which the present invention indexes, categorizes and stores a wide range of documents and document types in its electronic database regardless of document type or document format – col. 1, line 58 to col. 2, line 29. However, the prior art does not explicitly teach the combination of limitations in the independent claims.

2. Dependent claims 2-13, 16-27, 30-41, and 43-44 incorporate the listed limitations by reference and contain limitations that further distinguish over the art of record. For these reasons, claims 2-13, 16-27, 30-41, and 43-44, are considered allowable over the art of record.
